

Aurora Medical Center Kenosha Nursing

Aurora Medical Center Kenosha (AMCK) is a comprehensive urban hospital featuring 74 beds and offering specialized services across three locations in southeastern Wisconsin, catering to the communities of Racine, Kenosha, and Northern Illinois. With a dedicated team of nearly 400 nurses, AMCK delivers personalized, high-quality care that achieves exceptional patient outcomes in its prestigious programs for cardiac care, Women's Health, and its designation as a level IV trauma center and Stroke Center of Excellence. AMCK takes pride in its cancer treatment and maternity care programs, which have been recognized among the best in the nation by U.S. News & World Report. AMCK is currently on the journey to Magnet excellence with the American Nurses Credentialing Center.
