

Aurora St. Luke's South Shore Nursing

At Aurora St. Luke's South Shore, nursing is integral to the health and well-being of the South Shore community. Rooted in professionalism and compassion, our nurses deliver high-quality, patient-centered care while engaging in a culture of growth and professional governance. With 112 operational beds, we maintain an environment that supports personalized care and close collaboration among care teams. As part of Advocate Health, we foster a culture of growth, collaboration, and innovation—empowering nurses to advance their practice and elevate the profession across the system.
