

Advocate Trinity Hospital Nursing

At Advocate Trinity Hospital, a 205-bed, nonprofit acute care facility. Nursing is the heart of our community – driven by compassion, expertise and advocacy. Our nurses deliver excellence across all specialties, including high-acuity care in the Emergency Department. They are champions for Black Maternal Health, working to eliminate disparities and ensure safe, respectful care for every family.

We invest in our nurses’ growth through education, certification and mentorship – developing strong leaders from within to create the best nursing workforce. This commitment has earned national recognition including Gold Plus Stroke & Heart Failure Awards, AORN Go Clear Award, LGBTQ+ Healthcare Equality Leader, Age-Friendly Health System, Best Hospitals for Black America and U.S. News Best Regional Hospital for Equitable Access. Beyond the accolades, it’s the everyday moment - comforting, mentoring and advocating – that define our nurses’ true impact. At Advocate Trinity Hospital, nursing is more than a profession - it’s a promise to lead with heart and uplift every life we touch.
