

Illinois Masonic Medical Center Nursing

Advocate Illinois Masonic Medical Center has proudly served the Lakeview community of Chicago for more than a century. Guided by a shared commitment to redefining care for all, our nurses lead with excellence in a state-of-the-art, 397-bed non-academic teaching hospital. Looking ahead, the organization continues to advance innovation with the opening of a new bed tower and the launch of the Room of the Future in 2026, alongside the adoption of Virtual Nurse and Virtual Sitter models of care.
